IF YOU EMPLOY 100 PEOPLE OR MORE...

YOU CAN MAKE THESE
YOUR Success Stories!

Payroll Plan for U. S. Savings Bonds
actually increases worker production,
as demonstrated in large and medium-
sized companies throughout the
nation. Here are some examples:

**PAYROLL SAVINGS
MAKES EMPLOYEES
MORE CONTENTED**

In General Motors' My Job Contest, approximately 15,000 GM men and women gave the Payroll Savings Plan as one of the reasons they like their jobs!

**PAYROLL SAVINGS
CUTS ABSENTEEISM**

A survey made by a smaller company in Minnesota showed that odd employees not on payroll savings were absent almost 2½ times more frequently than those who were on the Payroll Savings Plan. Further proof that payroll savings cuts absenteeism!

**PAYROLL SAVINGS
REDUCES ACCIDENTS**

Records at our eleven Navy Yards show that, as participation in the Bond program increases, accident frequency and accident severity decline. When participation at the Norfolk Navy Yard climbed to over 90%, accident frequency declined over 50%, and the accident severity index dropped to 1/6 its former level!

Hundreds of companies are reporting benefits like these! Obviously, they add up to increased production.

What's more, the Payroll Savings Plan is a powerful weapon against inflation. Every Savings Bond dollar built up in the Treasury retires a dollar of the national debt that is potentially inflationary. That's good for the country's future—which means it's good for *your company's* future.

And, of course, it's good for the employee's future, because the Bonds pay \$4 at maturity for every \$3 invested.

If your company has the Payroll Savings Plan, make sure you and your employees are getting the most out of it! If you haven't yet installed the Plan, you're missing something! For facts or help, call your Treasury Department's State Director, Savings Bonds Division.
